

THE COMPULSORY 1 OF 3 TAKING THE LAB-SAFETY-AND – HEALTH TRAINING

- All the new members should participate in the lab-safety-and-health training for at least 3 hours.
- Anyone who might use dangerous or hazardous substances should take the training course at least for 3 hours.
- The staffs (including postdoctoral researchers) should take additional 3-hour-training-course for every three years.
- Anyone who does not take the training course or is not qualified cannot enter or work in the laboratory.

THE COMPULSORY 2 OF 3 FOLLOWING THE LAB SAFETY MANUAL

- All the personnel must read the “lab safety manual” designated for the Institute, and sign an agreement to follow all the procedures, regulations and rules described in the manual.

THE COMPULSORY 3 OF 3

THE PERIODIC HEALTH EXAMINATION

- All personnel should take a periodic health examination.
- According to the law, people who do not take the health examination are not allowed to enter or work in the laboratory.

THE PENALTY

- In accordance with the Article 35 of Labor Safety and Health Act, anyone violate the following conditions shall be subject to a fine of not to exceed NT\$3, 000.
 - Anyone who DOES NOT follow the procedures, regulations and rules set by the institute or the university.
 - Anyone who DOES NOT take the periodic health examination.
 - Anyone who DOES NOT take the training courses.
